## NAVIGATION: Info

Navigating the survey:

This survey contains questions you will be asked to answer on each screen.

Click the 'Next' button to continue to the next page.

Click the 'Back' button if you want to go back to an earlier question.

Leaving and returning to the survey:

Click the 'Exit' button on the top right of the screen if you need to complete the rest of the survey at a later time. Exiting will help ensure that all of your responses are saved.

To return to the survey, go to the survey's URL and re-enter the unique PIN you were provided.

Changing the survey language:

Click on the language dropdown in the top right corner. The language will update after you click 'Next'.

LabelWebConf:

#### **PRECONSENT: Info**

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey (GSS) for more than 40 years to keep a historical record of the concerns, experiences, attitudes, and practices of Americans. You last participated in the General Social Survey in {response to YEARFILL} and we are contacting you again to participate in the GSS. The information collected is used by policy makers, scientific researchers, government officials, and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, family, government, science, and health. Some topics may be sensitive for you, and you can decline to answer any question.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to think about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview length varies for different people; for most people, it usually takes less than 60 minutes. You may also be contacted in the future to participate in a future round of the General Social Survey or another study established by the National Science Foundation. Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey or any other surveys. Any future participation on your part will again require us to gain your consent.

### **CONSENT: Categorical (Single)**

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Please press 'Next' to continue with the survey.

### NATSPACY: Categorical (Single)

First, we would like to ask you about some things people think about today. We are faced with many problems in this country, none of which can be solved easily or inexpensively. We are going to name some of these problems, and for each one we would like you to tell us whether you think we're spending too much money on it, too little money, or about the right amount.

First: Space exploration

... are we spending too much, too little, or about the right amount on

Space exploration?

Some people think that the government in Washington ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor. Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

Here is a scale from 1 to 7. Think of a score of 1 as meaning that the government ought to reduce the income differences between rich and poor, and a score of 7 meaning that the government should not

concern itself with reducing income differences. What score between 1 and 7 comes closest to the way you feel?

**Categories:**

{_1}	1 Government should do something to reduce income differences between rich and poor
{_2}	2
{_3}	3
{_4}	4
{_5}	5
{_6}	6
{_7}	7 Government should not concern itself with income differences

#### RATEINTRO: Info

{response to gintrofill}Please look at the graphic below.

We would like to get your feelings toward people who are in the news these days. We'll show the name of a person and we'd like you to rate that person between 0 and 100. Ratings between 50 degrees and 100 degrees mean that you feel favorable toward the person. Ratings between 0 degrees and 50 degrees mean that you feel unfavorable toward the person. A rating of 50 means you don't feel particularly favorably or unfavorably toward the person.

**PANELIntro: Info**

As we mentioned earlier, this year, some GSS participants may be contacted for a follow up interview. The following questions will help us locate you if you are selected for this interview.

Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey. Any future participation on your part will again require us to gain your consent.

#### ADMINCONSENT: Categorical (Single)

One important purpose of our survey is to gather information about our society in order to explain trends in attitudes and behaviors. The GSS seeks to support the study of opinion data with more behavioral, fact-based information. To do this, we need your permission to search government records that may exist now or in the future such as Census data, unemployment or social security information, Medicaid and Medicare, health records and other sources. We would link your interview with that information upon completion of the survey. Also, we would like to be able to continue combining these data for the foreseeable future. Each time, in the future, we will remove personally identifiable information after the linking process, and store anonymous data for the duration of our study. The best way for us to get this information without taking up any more of your time is to conduct the work in a secure data facility meeting strict Federal Information Security Management Act requirements, and we need your permission to proceed. All identifying information will be kept confidential as required by law. If at any time you change your mind, you can contact us at the toll-free number 888-837-8988.

May we try to link government records with your survey answers?

If you would like to learn more about this, you can review Frequently Asked Questions at  
<http://gss.norc.org/Documents/MyGSS/AdminConsent.pdf>.

{x}	The second set of characteristics asks if people in the group tend to be hardworking or if they tend to be lazy.
{y}	Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "Hardworking." A score of 7 means that you think almost all of the people in the group are "Lazy." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in this group stand.

**WORDINT: Info**

We would like to know something about how people go about guessing words they do not know. On the following screens will be listed some words – you may know some of them, and you may not know quite a few of them.

On each line the first word is in capital letters – like BEAST. Then there are five other words. Please indicate the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would select “animal” since it comes closer to BEAST than any of the other words.

These words are difficult for almost everyone – just give your best guess if you are not sure of the answer.
